

CSS Asset Creation 2023 Information Sheet

Niko Jones, Damian Leonidas Attia-Barillas

For this asset creation contest, we have created a computer themed character. A full display of the model can be found on YouTube here: <https://youtu.be/rXTY9j8B98I>

This character's body is themed after a heatsink, with ample airflow and many fans to keep him cool. With GPU shroud armour and fans to keep his heart cool in the heat of battle. With a claw to grab his enemies as a hand, he can apply thermal paste with ease whenever he is injured. With a CSS themed shield, he is protected from whatever malware attacks! His attacking hand has all of the buttons he needs to power up and control the battle. He also rocks a superior gold plated helmet with CSS blue accents and a RAM sword to slice his enemies. All in all he is ready for battle and ready to manage any task!

For the room, we decided to go with the best room an average brogrammer would enjoy. With a TV, monkey monitor, and Dominos Pizza featuring Hatsune Miku vending machine, a haven for brogrammers and weeb everywhere. A full display of the model can be found on YouTube here: <https://youtu.be/L817x6DIFGo>

The room tour starts out with a nice visit to the couch, with luxury middle class cushioning and solid cherry pine handles. This compliments the pine table with a lovely photo of our groupmate Damian holding his prized possession, now on display on the wall. There are also lots of other posters up from various things the room curators hand-picked.

Next we go to the window and computer. We have chosen a lovely monkey monitor display, with a low-profile RTX 5090Ti inside, we are ready to grind the latest Minecraft updates. What a beautiful house he's building there. Also take a moment to look at the view he has from his desk-side window! And look at those amazing well constructed chairs! What a colour scheme this room has!

Now going into the final corner of the room, we finally see the LEGENDARY commercial from Domino's Pizza Japan introducing the Domino's Pizza App featuring Hatsune Miku. I HIGHLY recommend watching the full commercial here: <https://youtu.be/yPuI4lQjK7s> We have also introduced the ultimate hunger killer Domino's vending machine following the Miku colour scheme! As you can see there is a variety of pizza types with loads of customised art.
